Interview Tips!

Once you have been successfully short-listed, you will need to be ready for the interview stage here are some tips on how to prepare:

Research: The College, department, prison and position you are applying for. Be aware of what Milton Keynes College offers its students and take a look at our social media for the latest news.

Practice: Prepare and practice your interview answers and keep in mind the following points: Be detailed and specific; you should pick three situations that illustrate your past performance. Remember that the interviewer will be operating under the premise that “past performance in a similar setting is the best predictor of future performance”. We have found the best way to achieve ‘A’ star answers is to use the three-step STAR process (Situation or Task, Action, Result or outcome.)

The STAR Approach

Situation or Task: Describe the situation that you were in or the task that you needed to accomplish. You must describe a specific event or situation, not a generalised description of what you have done in the past. Be sure to give enough detail for the interviewer to understand. This situation can be from a previous job, from a volunteer experience, or any relevant event.

Action you took: Describe the action you took and be sure to keep the focus on you. Even if you are discussing a group project or effort, describe what you did, not the efforts of the team. Tell them what you did and what action you took.

Results you achieved: What happened? How did the event end? What did you accomplish? What did you learn?
